Subject: draft message on fence

Dan – I will send this to all the West Lake attys. Whom shall we cc at MDNR?

Dear Counsel:

EPA has determined that a fence separating OU 1 from OU 2 would be useful in keeping the OU 1 area undisturbed, particularly while work is being conducted at the former sanitary landfill which MDNR regulates. Dan Gravatt has spoken with Victoria Warren of Republic Services about the location of such a fence. Recognizing the information we have on the location of all the RAD waste is incomplete, EPA is taking a conservative approach and asking that the fence be constructed along the OU 1 side of the perimeter road to the quarry.

Please let me know whether you will arrange for your consultant to work with Dan on the design and location of the fence. We are looking at installation to occur this Spring.

Thank you for your cooperation in this matter.

Sincerely,

Audrey B. Asher
